Daniel G. Amen, M.D.

Dr. Amen appeals to a wide variety of audiences ranging from: Corporate Professionals, Church Congregations, Medical Practitioners, High School and College Students, Teachers, and the General Public.

Live Webinars with audience interactive questions and answers is also available on a variety of different subjects. Great for boosting employee morale and community togetherness.

Here is a brief description of a few popular speaking topics:

The End of Mental Illness - We are on the cusp of a new revolution that will change mental health care forever. The End of Mental Illness discards an outdated, stigmatizing paradigm and replaces it with a modern brain-based, whole-person program rooted in science and hope. No one is shamed for cancer or diabetes; likewise, no one should be shamed for depression and other brain health/mental health issues.

Change Your Brain Change Your Life - The breakthrough program for conquering anxiety, depression, obsessiveness, lack of focus, anger and memory problems. You will learn to empower yourself with each brain system, connect with healthier, deeper relationships, Dr. Amen's secrets to eating brain healthy.

Memory Rescue - Memory is the fabric of our soul. It makes us who we are and allows us to keep our loved ones close, even when they are far away. When our memory is diminished or damaged, it can rob us of our ability to make good decisions (because we forget important life lessons) and causes us to become disconnected from those we love and our purpose in life.

CREATING BRIGHTMINDS - Will give you the tools to help you boost brain health and increase focus, creativity and innovation and live a healthy, happier, less stress life through these simple steps. This can be a single lesson or a 6 month course for businesses.
